PROFESSIONAL SUMMARY

Recent B.Tech graduate in Information Technology (Result Awaited) with a CGPA of 8.0, specializing in Data Science, Machine Learning, Artificial Intelligence, and Full Stack Web Development. Completed an AI and Data Science internship at IIT Jammu and a Data Analytics Job Simulation at Deloitte. Passionate AI enthusiast with 6 projects spanning NLP, predictive modelling, chatbot development, and web development. Major project: BGSBU Smart Assistant Chatbot — an ML-powered university query assistant with 5,447 Q&A pairs, 84% satisfaction rate, and hybrid retrieval architecture. Holds 7 industry certifications including IBM SkillsBuild AI Fundamentals. Proficient in Python, scikit-learn, Node.js, SQL, Power BI, and MS Office. Seeking fresher-level roles in AI, Machine Learning, Data Science, Data Analytics, or Full Stack Development.

EDUCATION

Bachelor of Technology — Information Technology and Engineering

Baba Ghulam Shah Badshah University (BGSBU), Rajouri, J&K;

2022 – 2026 | CGPA: 8.0 / 10 | Result Awaited

- Relevant Coursework: Data Structures and Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering
- Electives: Machine Learning, Data Science, Artificial Intelligence, Web Technologies
- Major Project: BGSBU Smart Assistant Chatbot — ML-powered university query assistant

INTERNSHIP AND WORK EXPERIENCE

Data Science and Artificial Intelligence Intern

Indian Institute of Technology (IIT Jammu) — Summer School 2025

June 2025 – August 2025 | On-site

- Trained in supervised and unsupervised machine learning, data preprocessing, and model evaluation techniques
- Built and evaluated predictive models using Linear Regression and Random Forest on real-world datasets
- Developed end-to-end ML pipelines using Python, Pandas, NumPy, and scikit-learn
- Performed exploratory data analysis (EDA), feature engineering, and model performance benchmarking

Data Analytics Virtual Job Simulation

Deloitte (via Forage) — Remote

June 2025 – August 2025

- Completed industry-level practical tasks in data analysis and forensic technology consulting
- Applied structured analytical thinking and problem-solving skills to real-world business scenarios
- Demonstrated ability to interpret data and present findings in a professional consulting context

Machine Learning Training Program

Winnovation

2024

- Completed structured training in supervised and unsupervised machine learning algorithms
- Implemented classification, regression, and clustering models with hands-on exercises

PROJECTS

BGSBU Smart Assistant Chatbot [Major Project]

AI | NLP | Machine Learning | React | TypeScript | Python | FastAPI

2025 – 2026

- Developed an ML-powered university query assistant for BGSBU to handle student queries on admissions, fees, exams, and hostel facilities

- Built a hybrid retrieval engine combining BM25 sparse retrieval and Sentence Transformer dense retrieval (all-MiniLM-L6-v2, 384-dim) with Reciprocal Rank Fusion (RRF)
- Curated a dataset of 5,447 Q&A; pairs across 284 unique intents using PDF ingestion and a 5-pass data cleaning pipeline
- Built a continuous learning pipeline where user feedback is injected into the dataset and models are retrained automatically
- Developed a React 18 + TypeScript frontend with confidence visualisation (green/amber/red), quick question chips, and live feedback collection

Sentiment Analysis System

NLP | Python, NLTK, scikit-learn, TF-IDF, Pandas

2024

- Built an end-to-end NLP pipeline to classify customer review sentiment as positive, negative, or neutral
- Applied tokenization, stopwords removal, and TF-IDF feature extraction; trained and evaluated SVM classifiers
- Evaluated model accuracy on real-world product review datasets

Customer Churn Prediction

Machine Learning | Python, scikit-learn, Pandas, Seaborn

2024

- Developed a Random Forest model to predict customer churn for business retention
- Handled class imbalance using SMOTE; evaluated using precision, recall, F1-score, and AUC-ROC

QR Code-Based Complaint Management System

Full Stack Web Development | Node.js, MySQL, REST API

2024

- Developed a full stack location-based complaint reporting system for university campus management
- Built RESTful backend APIs with Node.js and MySQL; deployed QR codes for real-time issue reporting

Stock Market Trend Prediction

Machine Learning | Python, scikit-learn, Linear Regression, Random Forest, Matplotlib

2024

- Built and compared forecasting models on historical stock market data
- Visualized model performance and prediction accuracy using Matplotlib

WhatsApp Chat Analyzer

Data Analysis | Python, Pandas, Regular Expressions, Matplotlib, Seaborn

2024

- Parsed and analyzed exported WhatsApp chat data to extract user activity and communication patterns
- Visualized word frequency, emoji usage, and response trends using Matplotlib and Seaborn

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, PHP, HTML, CSS

Web Development: Node.js, MySQL, REST APIs, React, TypeScript

Machine Learning and AI: scikit-learn, NLTK, Natural Language Processing (NLP), Supervised Learning, Unsupervised Learning, Classification, Regression, Clustering, Random Forest, SVM, Sentence Transformers, BM25, Chatbot Development

Data Science and Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Exploratory Data Analysis (EDA), Feature Engineering, Data Cleaning, Data Preprocessing

Productivity and Office Tools: Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Power BI, Google Docs, Google Sheets

Soft Skills: Analytical Thinking, Problem Solving, Team Collaboration, Communication, Presentation, Continuous Learning

Tools and Platforms: Git, GitHub, VS Code, Ubuntu, Windows, VMware

CERTIFICATIONS

- Artificial Intelligence Fundamentals — IBM SkillsBuild
- Data Science and Artificial Intelligence — Summer School — IIT Jammu, 2025

- Data Analytics Job Simulation — Deloitte via Forage, August 2025
- Gen AI Engineering Mastermind — Outskill, 2025
- PowerBI Workshop — OfficeMaster, February 2026
- Build Website With AI — Simplilearn SkillUP, May 2025
- Machine Learning Course — Winnovation, 2024
